

Antony Abraham has 18+ years of experience working in the fields of Networking and Network Security and Cyber Defense. Prior to joining State Farm, he has held leadership positions with 5 other global organizations including Cisco Systems. For the last 13 years of his career he has been solidly focused in the area of Cyber Security. He has been with State Farm since 2011. He has led many networking and security initiatives, many of them global efforts. He designed and deployed intrusion detection systems across 3 continents, designed large campus networks to accommodate more than 60,000 users as well architected internet data centers. In his prior assignment with State Farm, he was a Security Architect, specially focused on enhancing State Farm's Cyber Defense. He currently leads a team of ethical hackers to bring in the attacker's perspective to help improve the security program. He holds the following certifications - CRISC (Certified in Risk and Information Systems Controls), CISSP (Certified Information Security Professional), CISA (Certified Information Security Auditor) and CEH (Certified Ethical Hacker).
