EXCELLENCE in SENIOR DESIGN
An Electrical and Computer Engineering Capstone Showcase

Senior Design Faculty & Staff
Online Mini-Workshop

Friday, May 22, 2020
8:00 a.m. to 12:15 p.m. (CDT)

The Excellence in Senior Design (ESD) Showcase was established in 2019 by the Southwest Region to

1) provide an opportunity for ECE students to showcase their design and problem-solving skills in a friendly competition, and
2) connect faculty members at participating schools in meaningful ways.

The focus this year will be on senior design faculty and staff, bringing together best practices and resources to facilitate virtual learning. Now, more than ever, our faculty and staff are committed to benefitting the entire ECE senior design community.
